

ICT enable tools

- 1. ICT Tools:** The teachers used ICT tools including computers, interactive whiteboards, and several software. Institute premises are Wifi enabled with a bandwidth upto 300 MBPS. The latest Softwares are used by many departments such as maths and computer sciences.
- 2. Teaching pedagogies:** Google classroom and Zoom were used to conduct online lectures, share resources and conduct internal exams and assignments. Pedagogy was mainly participative. Teachers also used Powerpoint presentations, lecture recordings, uploading on google drive, and Audio/video aids. Google Forms were used for taking feedback, research-based activities, maintaining attendance etc. All webinars, FDPs, workshops, DU exams, outreach programmes have been conducted through ICT (for details please see AQAR)
- 3. Upgrading ICT skills:** Several webinars, as well as FDP on MS tools, was organized by college committees and IQAC. The IT society has conducted a digital logo making competition. (for details please see AQAR)
- 4. Online library resources:** College library has IP access as well as remote access to e-resources of DULS, Membership of Braille library of DULS and N-List renewed every year.
- 5. Overcoming challenges:** Even though most software is in English yet Hindi and Sanskrit departments also could adopt this new technology and be completely online. ICT facilities were upgraded and college laptops were made available for issuing.
